

## **Does your fire department have funding for all of the equipment and training your members need to be safe?**

**Have you applied for the Assistance to Firefighters Grant before only to be DENIED?**

**Could you use some assistance to improve your chance of success? Help is available now!**

Last year \$547 million was distributed to fire departments just like yours for programs including firefighter operations and safety, vehicle acquisition, firefighter training programs, E.M.S. operations and fire prevention activities.

**Let me help you write a competitive AFG application at rates your department can afford.**

In fact, the cost of a grant writer can even be paid by the grant if your application is approved.

You can choose as much or as little help as you need. The following services are available:

- Narrative Review
- Application Review
- Start to finish grant applications

Why choose an expensive out of town vendor that doesn't understand your local needs? Using thirteen years of volunteer fire and EMS experience in Ontario County and a professional career in information technology I have written four successful AFG applications and many other successful grants.

The AFG program will be open for just one month, usually starting in early March each year. Don't miss out on a chance to help your department get the funding your members deserve.

Contact me today to learn more about how we can work together to write a concise AFG application that will be competitive and increase your chances to receive an award.
